STRUCTURE STABILITY CERTIFICATE

Certified that I visited the Existing School Building of **P. L. Jindal Convent School, Ratia, Dist. Fatehabad** to check the structural stability of the School Building.

Observation are as per vishual inspection are Follow:-

1. The load of the roof is on the walls. Walls are sufficient to take the load.
2. School is fully ventilated and lighted and structurally stable.
3. The gap is repairable by suitable method. The School building is constructed as per the IS code 456-2000 of specification and standards.
4. Brick masonry walls are in good condition and floors & roofs are also in good conditions.
5. The Design and Structure of the building is Safe against the Earthquake.

In view of the above observation it is reported that the floor of the school is safe for working.
